Division Accessibility

Web Page Accessibility Cheat Sheet

1. **Color and Color Contrast**

   The colors on my webpage contrast enough that readers can easily understand what is on my web page.

2. **Heading Tags in a Logical Order**

   I have included heading tags on my webpage.

3. **Tables and Charts**

   I have not added tables or charts for decoration and , if I do, I have incldued-headers, captions, and a text description.

4. **Alternative Text and Images**

   All my images have alt text or have been labeled as 'decorative'.

5. **Links**

   All the links I have put on my page are clear and descriptive.

6. **Text**

   The color of my text has enough contrast that it is easily readable.

7. **Documents**

   I have checked that any documents loaded onto my webpage have been made accessible.
