

Web Page Accessibility Cheat Sheet

By following this checklist, you can make sure that your web page follows Division accessibility requirements.

- Plain Language**
 - I removed unnecessary jargon or technical terms and I have written for my intended audience.
- Color and Color Contrast**
 - The colors on my webpage contrast enough that readers can easily understand what is on my web page.
- Heading Tags in a Logical Order**
 - I have included heading distinctions on my webpage.
- Tables and Charts**
 - I have not added tables or charts for decoration.
 - If I do have a table on my web page, I have included table headers and table captions.
 - If I do have a table or chart on my webpage, I have included a text description of the information presented.
- Alternative Text and Images**
 - All my images have alt text or have been labeled as 'decorative'.
- Links**
 - All the links I have put on my page are clear and descriptive.
- Text**
 - My text is at least in 11pt font.
 - The color of my text contrasts with its background enough that it is easily readable.
- Documents**
 - I have checked that any documents loaded onto my webpage have been made accessible.
